

BROOKS BROS

FOR THE COMPLETE TIMBER SERVICE

*brookst**ech** laminated timber products*

Brookstech Laminated Timber Products are a factory-produced, 'engineered' material made by gluing together and clamping accurately machined, defect-free lamellas of solid timber.

Brookstech products are off-the-shelf, cost-effective, high-performing, alternatives to solid wood sections. They are supplied in standard sizes and lengths for further machining to door, stair and window sections.

Why Choose Brookstech?

> MORE STABLE:

Multiple laminations means it's straight and, most importantly, stays straight.

> LESS WASTE:

No knots, splits, sapwood and defect-free.

> STRONGER:

Their strong, multi-layer, construction is consistent throughout.

> GREENER:

Produced from fine quality European Oak, Sapele and Redwood sourced from well-managed FSC® certified forests.

> SAVES TIME:

Clean, clear faces and uniform sections mean producing finished profiles can start straight away.

Bespoke Laminated Timber Products

If you don't see the section you need, please talk to us. We have our own laminating press operation and can produce laminated timber sections measuring up to 150mm x 900mm x 4.9mts.

For further technical and product information, delivery schedules and a sample of Brookstech Laminated Timber Products contact your nearest Brooks Bros Sales Office below:

KKK | Multiple laminated layers with finger joints on all lamellas.

DKD | Multiple laminated layers with only finger joints on the hidden inside lamella, so clear outer faces.
